

Zlavomat.sk is part of the Slevomat Group, the largest Central European discount portal group, which operates in 6 other countries (CZ, HU, LT, LV, EE, BU). A dynamic and fast-growing company, Zlavomat.sk has gradually become the leader in the Slovak market operating in all major cities across Slovakia and providing exceptional discount offers on services and products. The Zlavomat.sk brand is a guarantee of quality, professionalism and openness to both its customers and partners.

As Zlavomat has been growing constantly and its number of employees has multiplied since the company started, we realised there was a need for effectively motivating and managing our human resources, which are the most valuable asset of our company.

In order to optimise and fine-tune our processes in human resources, we decided to utilise the services of Prama s.r.o., which was quick to understand our needs and provided us with professional advice on how to set up our human resource policies.

Based on our positive experience from cooperation with Prama s.r.o., in the future we will certainly seek advice from this company on critical personnel issues and can thoroughly recommend their HR services.

Bratislava, 10 June 2013
